OPTIMIZE YOUR BUSINESS

DocuDriven specializes in smart products and convenient services that streamline your business saving you time and money.

DIGITIZING ENABLES OPTIMIZING

DOCUMENT MANAGEMENT

Document management is an essential part of every business. Keeping track of paper and electronic documents throughout their life cycle can be a daunting task. With our Document Management system, any information becomes quick and easy to access, track, and store in a secure environment.

SCANNING

Dealing with paper documents is a huge hassle. Not only do you have to figure out where to keep your important information, you can lose precious time retrieving it to process later. Let us relieve you of your burden with our professional scanning services. Our service is accurate, convenient, and secure. We use OCR technology and provide “full-text” searchable documents. We offer free pickup and delivery.

AP AUTOMATION

If you are not automating your Accounts Payable (AP) processes, you are leaving a fortune on the table. High automation companies have saved 70% of the cost to process vendor payments according to API Outsourcing. Our system will improve efficiency by reducing processing times, increasing information control, preventing fraud, and saving money by decreasing AP costs.

By using a sophisticated document management system, you can increase efficiency and customer satisfaction. “What used to take me 10 minutes or longer now can be accomplished in a few seconds.” ~ Donna Thomas, HR Manager, Hermiston School District

Business Process Optimization

Optimize with Automated Workflow, Electronic Forms and Mobile Apps

Easily automate the workflow of a document rather than manually processing it. ▶

◀ Electronic forms capture form data with no additional data entry.

Why optimize your business with DocuDriven's smart products and convenient services?

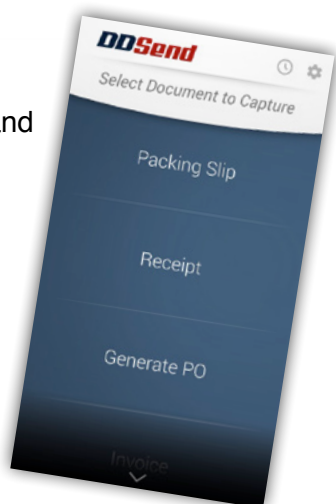

- Reduce direct costs • Increase your efficiency
- Maximize your effectiveness • Improve your compliance

“45% of paper-free projects have a 6 month or less payback period.”

~ AIIM

- Document Management:** Software, Electronic Forms, Workflow
